

# Installation of End Caps

**IMPORTANT: FAILURE TO INSTALL END CAPS  
WILL VOID MANUFACTURER'S WARRANTY**

The End Caps must be installed just prior to final installation of the door. Squeeze the caps slightly before installing in order to create a snug fit.

The end caps are to be slid into place along the top and bottom corner of the door. (Pos. 1 & 2). Care must be taken to align the holes in the end caps with the holes located on the top and bottom of the door. (See figure below).
