

## LEED® Certification Opportunities

Oshkosh Door Company is committed to continually reviewing our product offering to help ensure we offer the most environmentally friendly products available, our architectural grade products can assist you in achieving **LEED** (Leadership in Energy and Environmental Design) credits including recycled content, regional materials, rapidly renewable materials, certified wood and low-emitting materials.

The **LEED** Green Building Rating System® is a voluntary, consensus-based national standard for developing high-performance, sustainable buildings. **USGBC's** members, representing every sector of the building industry, developed and continue to refine **LEED**.

Leed Credit	Leed Criteria	Core Construction						
Oshkosh Nomenclature		GW	GP, GPHD, GPEHD, GPF, GFP45, GPPF45	GPFSC, GFPFSC45	GT	GTFSC	GF	GSFSC
<u>Materials &amp; Resources</u>		Particleboard			Structural Composite Lumber		Fire Retardant	Stave Lumber
MR 4	<b>Recycled Content:</b> (sum of post-consumer + 1/2 pre-consumer) 10% of all material must meet recycled requirements for 1 point or 20% to qualify for 2 points.	Yes	Yes	Yes				
MR 5	<b>Regional Materials:</b> (Extracted and manufactured regionally) 10% of all material must be extracted and manufactured within 500 miles of the jobsite for 1 point or 20% for 2 points.	Yes**	Yes**	Yes**				
MR 6	<b>Rapidly Renewable Material</b> Use rapidly renewable building materials and products (made from plants that are typically harvested within a ten-year or shorter cycle) for 2.5% of the total value of all building materials used on the project for 1 point.	Yes						
MR 7	<b>Certified Wood</b> Use a minimum of 50% of all wood-based materials and products, which are certified in accordance with the Forest Stewardship Council (FSC®) Principles and Criteria, for wood building components for 1 point.			Yes FSC® Certified		Yes FSC® Certified		Yes (FSC® Certified)
<u>Indoor Environmental Quality</u>								
EQ 4.4	<b>Low Emitting Materials:</b> All materials on the entire project must qualify in order to receive 1 point.	Yes	Yes	Yes	Yes	Yes	Yes	Yes

\*\*Special qualifications apply.

The combined distance of raw material shipped to the factory and the distance from the factory to the job site must be within 500 miles of Oshkosh, Wisconsin.

<u>Materials &amp; Resources</u>	<u>Intent</u>
MR 4 <b>Recycled Content:</b> (sum of post-consumer + 1/2 pre-consumer)	Increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of new virgin materials.
MR 5 <b>Regional Materials:</b> (extracted, processed and manufactured regionally)	Increase demand for building materials and products that are extracted and manufactured within the region, (500 miles of project site) thereby supporting the use of indigenous resources and reducing the environmental impacts resulting from transportation.
MR 6 <b>Rapidly Renewable Material</b>	Reduce the use and depletion of finite raw materials and long-cycle renewable materials by replacing them with rapidly renewable materials.
MR 7 <b>Certified Wood</b>	Encourage environmentally responsible forest management.
<u>Indoor Environmental Quality</u>	<u>Intent</u>
EQ 4.4 <b>Low Emitting Materials:</b> Composite Wood	Reduce the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well-being of installers and occupants.
