

CGT FRP CorGuard Extra Heavy Duty Door (Fiberglass Reinforced Polymer)

FRP CorGuard CGT Door	This door is specifically designed for use in high abuse areas as well as harsh environments. The FRP and polymer construction is ideal for any project where the doors are frequently exposed to water, salt or other harsh chemicals and need greater impact resistance. Typical applications are areas where doors may be subjected to impacts by items such as carts in hospitals, schools, restaurants and other commercial buildings.
Thickness	1 3/4" to 2 1/4"
Maximum Sizes	4-0 X10-0 single 8-0X10-0 Pairs
Core	Structural Composite Lumber (SCL) Core contains no added urea formaldehyde
Stiles	Solid Polymer
Rails	Solid Polymer <ul style="list-style-type: none"> ➤ Bottom rails are oversized to allow for field trimming.
Blocking	Core is blocked with solid polymer at light openings and hardware preps to keep core material sealed from moisture. No additional blocking needed for the attachment of hardware.
Faces	Standard faces are .090 thick smooth FRP. Options are available for .120 thick faces as well as FRP pebble faces both in .090 and .120.
Core Assembly	Stiles and rails are securely bonded to the core and abrasively planed as an assembly to insure a smooth uniform surface.
Warranty	10 years against defects in workmanship and life of installation against corrosion induced failure. See complete warranty for full details.
Special Details	Machining for templated hardware plus additions of lights, louvers, applied moldings, Dutch doors, transom panels, etc. Please contact the factory for full details.
Factory Finish	All doors with smooth surface faces are factory primed as a standard and available with standard and custom matched paint colors. Smooth paint finish is low semi-gloss (40-45). Pebble faced doors are available with standard or optional custom match colors. Pebble faced doors come standard with matching pebble edges which are applied before the faces.
