Architectural Flush Wood Doors. Hardworking works of art.

A high-traffic door can still turn heads. Our architectural collection elevates style in every space while delivering the technical performance the environment demands.

Non-rated

- Choose from particleboard, structural composite lumber, wheat or stave lumber core
- Available in options that meet certain LEED credit standards or are FSC® compliant
- Most cores can be used in a 20-minute fire rated application

Acoustical

- Can be tailored to meet any sound transmission class (STC) rating
- All STC ratings based on real-world evaluations of each door
- Core made with special acoustical material
- Sound Transmission Class (STC) ratings, measure per ASTM E-90, available STC 31 through STC 47
- Select cores available with fire ratings
- Available in options that meet certain LEED credit standards or are FSC® compliant

Bullet Resistant

- Three protection levels available to guard against gunfire
- Can be customized to gun type and impact (1 shot vs. 5)

Fire Rated

- Solid mineral core offers fire ratings of 45, 60 and 90 minutes
- Meets WDMA Extra Heavy Duty performance level with blocking
- Choose from particleboard or mineral core
- Available in options that meet certain LEED credit standards or are FSC® compliant
- Most cores can be used in a 20-minute fire rated application

Lead Lined

- Available in 1/32-inch and 1/8-inch lead thicknesses
- Eliminates need to wrap lock body with lead to prevent radiation passage

Wood Frames

- Delivered with your doors so you can install everything at once
- Customized to meet the specific rating, configuration and color of your door

Finishing.
A vision of precision.

Oshkosh Door Company utilizes a fully automated ultraviolet cure finishing line. Each door receives stain, two sealer coats, meticulous final sanding and two top coats with UV curing between each step.

So in addition to exact color, you get exact coverage.

Custom Color:

- Wood doors can be finished with any veneer
- Custom colors can be achieved with any type of stain or paint

Durable. Graceful. **High Pressure Laminate.**

Our High-Pressure Laminate (HPL) doors protect with robust durability and unify with elegant consistency.

These doors are specifically designed for heavy traffic applications, while offering striking colors, patterns and finishes with precise uniformity.

Finishes produce consistency with Oshkosh Door Company's immense selection of laminate. HPL doors can be specified with any core type offered by Oshkosh Door Company, including non-rated and fire rated.

WDMA Performance Doors.

The Window and Door Manufacturers Association develops performance standards for architectural grade wood doors determined by duty levels (amount and severity of use).

Examples of applications for each duty level include >

Standard Duty - Low usage office doors, closets or private restrooms

Heavy Duty - Assisted living, office entries or medical exams

Extra Heavy Duty - Classrooms, hospital patient rooms or dorm rooms

Safer **Passage.**

Beautiful, responsible, sustainable doors. It's the only way we operate.

FSC® - responsible harvesting

- Oshkosh Door Company abides by all FSC® COC requirements
- COC certification allows you access in environmentally and socially aware markets

LEED - responsible building strategies

- We build credits into your projects to help you achieve any level of LEED certification

Sustainability - responsible work practices

- Low-emitting facility and green building options using healthy choice Type 1 adhesives
- Inducted into the Green Masters Program by Wisconsin Sustainable Business Council
